Set Custom With Pen Boxed Wooden Creative keychain and pen

Yes, you read that right. Sprout's pencils can be planted after you've used them and they grow into herbs, flowers, vegetables and even spruce trees.

The idea behind this unique item is that if you can upgrade a pencil so it has a second life as a plant, what other small changes can you make in your everyday life to be more sustainable?

Planting a pencil is not just about celebrating the glory of plants and making the unusual possible, it's also a step on the path to zero waste living, and considering the full life cycle of anything you use.
